

Social Enterprise Partnership Practice Exchange Day

We are delighted to invite you to the 3rd Social Enterprise Partnership Practice Exchange Day – to be held on Wednesday, 6th October 2004. It is a fantastic opportunity to meet up with partners within the partnership, to report on knowledge and experiences, and to learn and share new ideas.

The event will take on the format of an exhibit. Each partner will be allocated a stand/s, depending on how many projects each partner would like to invite to the meeting. Everyone will have the opportunity to show case and exhibit their projects, using poster boards, data projectors etc, or other materials, such as products, publications, video footage etc.

This event will be a great platform for exhibitors and ‘delegates’ alike to interact, share and discuss their experiences, strategies, and successes in running a social enterprise or social firm.

We appreciate that this type of event will involve additional preparation on behalf of each organisation – however, we believe that this is the ideal way to allow each project to be demonstrated in the best way possible: in practice, in context and in action.

Additionally, it is the best opportunity for our national, regional and Scottish and Welsh partners to showcase their work in their local communities, and for all participants to have a greater understanding of what is happening at “ground-level” within the partnership.

We hope that each of our partners will participate on the day. Please can you confirm if you are able to attend and participate as soon as possible by emailing elizabeth.lopez@sepgb.co.uk or by returning the attached fax back form no later than the 19th of August?

We do hope you will be able to join us and we look forward to seeing you on the 6th of October.

The Social Enterprise Partnership Practice Exchange Event
